PREPARE/ENRICH AUSTRALIA

Prepare

successful marriages don't just happen

What is Prepare?

Prepare is not a test. It will not predict the success or failure of your relationship. It is a tool designed to assist you in preparing for marriage by encouraging you to talk about your relationship with each other.

Why should you do Prepare?

Prepare is designed to help get your marriage off to a good start. It can be an important step in improving your relationship. By helping you build upon the strengths you have as a couple and assisting you to clearly identify areas which could be improved.

There is a fee of \$100 per couple to do the course. This fee covers all sessions.

How does Prepare work?

Prepare is based on each partner's response to a series of questions. The questions cover areas of a relationship which are important to most couples.

Questions are asked by a counsellor who is trained to use the program. The counsellor meets with you both and, using a detailed computer analysis of your answers, provides feedback. Through this process you are helped to identify your strengths as well as the areas of your relationship which may require assistance.

A special version called Prepare-MC is available for those couples marrying, where there are already children from a previous relationship
